

PHR1012 COMMUNICATION RUBRICS

CRITERIA		PERFORMANCE INDICATORS FOR EACH CRITERION
		Please <i>circle/highlight</i> the performance indicator(s) that the student
Communicative effectiveness	1. Student displays behaviours appropriate to a health professional . Verbal and nonverbal strategies are used to build rapport, convey attention and empathy, and reinforce/enhance communicative effectiveness.	• Greets audience and establishes rapport • Describes purpose or reason for counseling session in terms of benefit to audience • Demonstrates appropriate nonverbal attending and immediacy behaviors (direct eye contact, head nods, posture, body language, privacy, distance, absence of barriers, etc.) to draw and convey attention and empathy • Demonstrates respect and interest, willingness to help • Attends to patient's physical and/or mental comfort (<i>When applicable</i>) • Uses written information or visual methods (e.g. leaflet, PPT, etc.) to reinforce and supplement communicative effectiveness (<i>When applicable</i>)
	2. Communication is easily understood, concise, fluent and well-paced .	• Uses concise, easily understood language • Uses appropriate pace so that audience can understand and follow what is being communicated • Uses appropriate tone of voice to put the audience at ease • Speaks fluently. Occasionally uses verbal fillers (uh, um), but does not distract audience from meanings
	3. Communication suits audience's level of understanding and needs .	• Uses terminology audience will likely understand • Modifies communication to meet audience's special needs (e.g. low health literacy, ESL issues, cultural differences, etc.) (<i>when applicable, may not for every scenario</i>) • Avoid colloquialism
	4. Communication is logical and easy to follow .	• Organizes presentation/ interview/ patient education in a logical sequence • Progresses from one section to another using signposting; includes rationale for next section
Application of interpersonal communication to address problems	5. Student elicits information effectively to identify the problem through questioning, actively listening and periodically verifying own understanding.	• Identifies the audience's problems or the issues that audience wishes to address with appropriate opening question • Listens attentively, allowing audience to complete statements without interruption, and leaving space for audience to think before answering, or go on after pausing • Uses open and closed questioning technique to elicit information and identify problems • Periodically summarises to verify own understanding of what audience has said; invites audience to correct interpretation or provide further information. • Confirms list and screens for further problems
	6. Student provides accurate, complete and concise instructions , and engages audience in problem solving.	• Draws accurate and logical conclusions based on assessment of the person's history and information sourced from referenced material • Provides all relevant instructions/recommendations, based on assessment of audience understanding • Provides clear, concise and specific instructions that audience can follow and understand • Avoids overloading with information • Gives audience opportunity and time to talk to engage audience in collaborative planning and problem-solving • Helps identify resources to assist in problem resolution
	7. Student confirms effectiveness of communication and addresses misunderstandings or gaps in understanding.	• Asks audience to teach back new information provided and suggested changes to be initiated • Addresses misunderstandings or gaps in understandings • Establishes plan for follow-up or reviews next step to be taken • Invites audience to call if questions or concerns arise, thanks audience, concludes encounter

Notes:

3 marks: Student demonstrated ALL the performance indicators CONSISTENTLY AT THE EXPECTED LEVEL.

2 marks Student demonstrated MOST the performance indicators CONSISTENTLY AT THE EXPECTED LEVEL.

1 mark: Student demonstrated ONLY SOME performance indicators CONSISTENTLY AT THE EXPECTED LEVEL.

0 mark: Student demonstrated NONE of the performance indicators CONSISTENTLY AT THE EXPECTED LEVEL.

• The rubric is task-specific. Some indicative behaviours/criteria are not for every scenario or assessment task.
